Do you have a question about acting? This is the book to learn all there is to know about breaking into the profession. The authors who know their stuff have packed this book with lots of good information. They discuss such things as auditioning, why you should have your own wardrobe, stunt work, professional photos and why you have to have them. These are just some of the areas they touch on. Unlike other books of this type, the authors have brief summaries of the most important aspects at the end of each chapter. Many may remember both authors. Mara Purl started acting on "Days Of Our Lives" and Erin Gray is most noted for her role on the popular "Buck Rogers in the 25th Century". Both have a wealth of experience which they share here in this expanded edition that should help anyone trying to get into this profession.

– Jim Cox, Midwest Book Review
